List of Clarification Requests for Market Survey Request for Information MS-115444-ACQ

MS ANNEX	MS Section Ref.	QUESTION	ANSWER	MS Changes
B	5	Can you give us an idea on the additional total number of other staff members/stakeholders needing this limited/ad hoc access?	About 100	None
B	5	May we consider them as an "infrequent user" (e.g. user that only access few times per month or less)?	Indeed	None
D	4	Can you elaborate a bit more about what you mean by "sourcing options"? Are you referring to other software vendors or technology partners for example that we are working with?	From your experience, we would like you to inform us if there is any other option we should consider, instead/or complementing the exercise that is being done through this Market Survey and the eventual formal competition that could follow. It could also concern, as you well say, the proposed tool to be use, through your own means or other potential providers being your partners	None
