#### Attachment 1: Responses to Clarification Questions, Release Number 5

#	RFP Source Document	Offeror's Question	Purchaser Clarification
26	•	In the evaluated Options in CLIN 3 the purchaser has divided the deliverables, e.g. 3.1 Common Operational Picture (COP) – interfaces into three sub-CLINs, 3.1.1, 3.1.2, 3.1.3. To fulfill these sub-CLINs, some cross-functional functionality needs to be implemented, that might be required to deliver the other sub-CLINs. It is our understanding, that we can put the price for this into the biggest sub-CLIN, e.g. 3.1.1, and keep the other sub-CLINs at zero cost.	In the evaluated Options in CLIN 3 the purchaser has divided the deliverables, e.g. 3.1 Common Operational Picture (COP) – interfaces into three sub-CLINs, 3.1.1, 3.1.2, 3.1.3. To fulfill these sub-CLINs, some cross-functional functionality needs to be implemented, that might be required to deliver the other sub-CLINs. The bidder may indeed insert the price into the biggest sub-CLIN, e.g. 3.1.1, and keep the other sub-CLINs at zero cost, as long as they comment on the zero subCLINs as such.
26	Book I - Annex D-TVCRM	Book II, Part IV, E31 and E32 items stated in the referenced documents are different from each other.  In 04-IFB-CO-115791-DEMETER-Book I - Annex E - Eval Criteria to Reqt Matrix:  E31 is Interoperability  E32 is Synchronization Matrix  In 03-IFB-CO-115791-DEMETER-Book I - Annex DTVCRM:  E33 is ORDERS  E32 is Interoperability  Could you please clarify the confusion, including the sub-items and SRS assignments related to these items?	Revised IFB-CO-115791-DEMETER-AMD5 Book I - Annex D - TVCRM and IFB-CO-115791-DEMETER-AMD5 Book I - Annex E - Eval Criteria to Reqt Matrix issued with AMD5
26	4 Book I - Bidding Sheets	In 'Payment Schedule' tab of IFB AMD4 Bidding sheets: MS14 "Warranty 50% (FSA + 1/2 year)" by CA+33M doesn't seem consistent with MS13 "FSA" CA+26M. Please clarify.	Please refer to revised 02-IFB-CO-115791-DEMETER-Book I-AMD 7 Annex A-Bidding Sheets issued with Amendment 7
26	5 Book I - Bidding Sheets	In 'Payment Schedule' tab of IFB AMD4 Bidding sheets: MS11 "Validation phase WP2 completed" by CA+25M doesn't seem consistent with MS12 "PSA-WP2" CA+24M which is expected to occur after WP2 validation phase completion. Please clarify.	Please refer to revised 02-IFB-CO-115791-DEMETER-Book I-AMD 7 Annex A-Bidding Sheets issued with Amendment 7
26	6 Book I - Bidding Sheets	In 'Payment Schedule' tab of IFB AMD4 Bidding sheets: MS15 "Warranty 100% (FSA + 1 year)" by CA+39M doesn't seem consistent with MS13 "FSA" CA+26M. Please clarify.	Please refer to revised 02-IFB-CO-115791-DEMETER-Book I-AMD 7 Annex A-Bidding Sheets issued with Amendment 7
26	7 Book I - Bidding Sheets	About M&S Milestones 19 to 28 "number of months from CA" in 'Payment Schedule' tab of IFB AMD4 Bidding sheets there is inconsistency with the requirement to start M&S activities at FSA (n=26), please align the M&S milestones.	Please refer to revised 02-IFB-CO-115791-DEMETER-Book I-AMD 7 Annex A-Bidding Sheets issued with Amendment 7
26	Book I - Bidding Sheets 8 Contract Special Provisions	There is a delta between Milestones dates displayed in 'Payment Schedule' tab of IFB AMD4 Bidding sheets and 'IFB-CO-115791-DEMETER-AMD5_Book II-Part II Special Provisions' § 7.7. Please align the milestones "number of months from CA" in these two documents.	These are two different "n" representing different values. In the bidding sheets "n" represents the latest contractual due date, while in the Article 7.7 of the CSP it represents the month at which the index is going to be read (more or less the medium months of the period of performance corresponding to the particular milestone).
26		Q&A#230 clarified that SIAT is in CLIN 1.4.1 and 1.4.2 both at EDC+6M: It doesn't seem consistent with the sequence of events described in SOW §4.3.4 where SIAT occurs after CRQ & ST and CLIN 1.4.3 "CRQ and Security Testing for Work Package 1" completed by EDC+8M. Same question for WP2 SIAT. Please clarify.	WP1 SiAT to be placed in 1.6.2. WP2 SiAT to be placed in 2.4.2.

# **Bidding Sheets Instructions**

#### **INTRODUCTION & IMPORTANT NOTES**

Bidders should note that NCIA has recently updated its bidding sheet template and are encouraged to read the instructions in full for this new version before completing the bidding sheets.

All bidders are required to submit pricing details to demonstrate the Purchaser's Pricing Principles are being applied as part of their bids. All data submitted in these sheets shall be complete, verifiable and factual and include the required details. Any exclusions may render the bid as non compliant thus removing the bidder from the bidding process.

Bidders are **REQUIRED** to complete the following tabs:

- "Offer Summary",
- "CLIN Summary",
- "Labour".
- "Material".
- "Travel",
- "ODC",
- "Rates".

Note that input cells in the "Offer Summary" and the "CLIN Summary" tabs are colour coded YELLOW.

The instructions for the detailed tabs can be found below, as well as in the green boxes within each detailed tab. G&A, Overhead, material handling and other indirect rates do not need to be separately calculated in the detail sheets but must be included in the totals for each category (Labour/Material/Travel/ODC) as appropriate. A list of the direct and indirect rates applied in the bid must also be provided in the "Rates" tab, although they do not need to be linked to any and the detailed calculations. The list of these rates will be requested in pre-contract award from the winning bidder.

Note: any information found within GREEN boxes throughout the entire document is provided as an instruction and/or example only.

Any formulas provided in these bidding sheets are intended only to assist the bidder. Any changes in formula can be made at the bidder's discretions, as long as the detailed costs are clear, traceable and accurate as required. Ultimately the bidder is responsible for **ALL** values, formulas and calculations within the bidding sheets that are submitted to the Agency.

### Bids in MULTIPLE CURRENCIES should follow the following instructions:

- For the "Offer Summary" tab bidders must add "Fixed Price" column to the right of the current table for each additional currency.
- For the "CLIN Summary" tab, Bidders have 2 options: A) Two columns "Unit Price" and "Total Fixed Price" may be added to the right of the current table for each additional currency of the bid; B) Bidders may duplicate the CLIN Summary tab for each currency bid.
- For the Detailed tabs Bidders have 2 options: A) Provide all the detailed data for all currencies in the table provided, selecting the individual currencies from the dropdown lists and summing only common currencies together in CLIN Summary/Offer Summary Sheets B) Duplicate the CLIN Summary tab for each currency bid.

DETAILED TABs	DESCRIPTION
	For CLIN 3 - OPTIONAL EVALUATED Interoperability adaptations WP3
	Interfaces: specify costs for each of the interfaces in 3.1 - 3.7. For futher information, refer to SOW Annex B.
	Costs are inclusive of all activities needed, such as project management, design, build, test and any additional cost of deployment.
	For interfaces that don't need adaptations, specify zero (0) cost and add the explanation in the "Optional comments" column.
CLIN SUMMARY - CLIN 3	
	<b>Evalution criteria:</b> specify costs for each of the evaluation criteria under 3.8 not already covered under "interfaces" that need adaptations in order to be compliant.
	Costs are inclusive of all activities needed, such as project management, design, build, test and any additional cost of deployment.
	For evaluation criteria that don't need adaptations or are already covered by costs specified for interfaces in 3.1 - 3.7, specify zero (0) cost and add the explanation
	in the "Optional comments" column.

MATERIAL LABOUR TRAVEL ODCs	The detailed tables are to be completed by the bidder with all columns populated, and shall be expanded to include as many rows as necessary to provide the detail requested. The bidder is required to identify for each item the CLIN it is associated with from the drop down menu. Each column should then be populated using the column-specific instructions in the first row. Bidder may not delete columns within tables, or omit information from columns, but may add columns if necessary, although it's not anticipated this will be needed.  Note: CLINs with no costs associated with that item should also be selected within the table, and noted that there is no cost within that table for the CLIN. For example, if there is no labour associated with CLIN X.1, select CLIN X.1 in the first column and then in the second column note "No Labour is associated with this CLIN". This will help to ensure that all the proper detail has been accounted for and properly allocated.  Important Note: The Total sum of the "fully burdened" cost column should equal the grand total cost for each category (Labour, Material, etc.) to include profit as well as all indirect rates (G&A/Overhead/Material handling/etc.) associated with that category. These indirect rates must be included in the total fixed price on the appropriate detailed tab but are no longer required to be shown as separate calculations at the bidding stage. However, the bidder is required to include the associated indirect costs in the totals of the detailed tab in the base unit costs. Alternatively, the bidder may choose to show these as separate calculations by expanding the table columns to show the additional costs due to these indirect rates (similar to the way profit is calculated). Note again, although the detailed indirect rate calculations are not required at the bidding stage, this information will be requested from the winning bidder during pre-contract award discussions.
I RAIFS	As discussed previously in these instructions, the detailed indirect rate calculations are not required to be included in the bidding sheets, although the bidders may chose to do so. However, ALL bidders are required to state the G&A/OH/Material handling and any other indirect rates that they have applied to the bid.
